Continuation of Substance of Interview including description of the general nature of what was discussed:

Examiner and Applicant discussed Examiner's proposed on August 5, 6, 10, and 11. Examiner proposed amending the claims to correct antecedent issues and cancel the "means plus function" claims.

Both parties agreed to rewrite the means-plus-function (MPF) claims into non-MPF apparatus claims. Applicant requested that computer-readable medium (CRM) claims be added with fees being paid accordingly.

It is also noted that Applicant remarked:

The rewriting of the MPF claims into non-MPF system claims is done without prejudice and without conceding the merits of any allegations or possible rejections to these claims. Specifically, it is respectfully submitted that all requirements of 35 U.S.C. § 112 were met for the MPF claims. The right to submit MPF claims in unamended or other form in a continuation or other application is reserved.

With respect to the CRM claims, it is respectfully noted that use of phrase "non-transitory" is redundant and is included (1) to expedite prosecution, (2) under protest of current USPTO CRM guidelines, and (3) without affecting the scope of the CRM claims. As understood by the undersigned, signals per se, are the only subject matter removed from the scope of these CRM claims through the use of the phrase "non-transitory[.]" Accordingly, use of the phrase "non-transitory" in the preambles of the CRM claims is redundant at least because use of the word "storage" in these preambles is sufficient to bring the CRM claims within the patentable subject matter requirements of 35 U.S.C. § 101.
